

The Gravel Project

"...a vibe present in the sounds of Tedeschi Trucks Band, perfect for an outdoor festival."

– Colin Kirkland, Sound Of Boston

"From the raw, fuzzed-out tone 'No More Fire' to the percolating Latin rhythms and searing guitar of 'Facts and Fiction' to the slow-burn jam 'Saving up my Love,' The Gravel Project's *Many Miles Ahead* travels diverse routes from a core sound forged in part by the songwriting and the band's chemistry."

– Scott McLennan, contributing writer to Arts Fuse Boston

"Some good, accessible, catchy, ethereal rock! Dig it."

– Pete Shapiro, Brooklyn Bowl

Originally created by Andrew Gravel (vocals, guitar), **The Gravel Project** is an all star band of Boston music veterans including brother, Jordan Gravel (organ, keys), Dave Fox (drums), and Eguie Castrillo (percussion). **The Gravel Project's** live show blends rock, world music and jazz with power and soul. Carrying the tradition of 70's blues and psychedelic rock music, **The Gravel Project** embodies the spirit of Santana combined with the classic raw energy and moving songwriting of The Allman Brothers and Tedeschi Trucks Band. With three studio albums and countless past performances, the future is bright for Boston's **The Gravel Project**, and as the title of their 2022 studio album suggests, there are "*Many Miles Ahead*."
